

Scale your business and modernize with Kyndryl Cloud Services for Google Cloud

Customer challenges

Migrating workloads to cloud is a strategic imperative to enable personalized experiences for customers. While many organizations have moved their simple workloads to cloud, they now need to modernize and migrate the complex mission-critical workloads to truly deliver on digital transformation.

The changing economic conditions and speed of industry change has both accelerated and underscored the dependency on digital transformation. Yet a list of concerns about growing complexity of hybrid IT estates lead many organizations to put off modernization efforts. The concerns include lengthy migration processes, shortages of in-house skills, the risk of unplanned outages, and the need to maintain performance SLAs.

To help customers address these challenges Kyndryl and Google Cloud have teamed to deliver integrated cloud services. Our approach is designed to benefit from Kyndryl's cloud migration expertise and Google Cloud efficiency, agility, and innovation. We help organizations identify right-fit workload placement, facilitate migration, drive platform modernization, and accelerate operational transformation.

Solution features and benefits

Kyndryl is a trusted end-to-end infrastructure services provider that provides proven and reliable Google Cloud solutions. Customers use Kyndryl Cloud Services for Google Cloud to create a secure, repeatable, scalable path to cloud. We deliver the Google Cloud capabilities that best meet your needs. Key features and benefits of this solution include:

- 1 End-to-end transformation solutions with Kyndryl Cloud Services for Google Cloud.
- 2 Design and implement Google Cloud infrastructure to meet the customer needs.
- 3 Automated rapid implementation to accelerate production readiness.
- 4 Modern managed services-based digital operations that simplify management of Google Cloud.
- 5 Hybrid IT architectures with comprehensive functionality, integrated with streamlined consumption, financial governance, and security.
- 6 Design and build a highly secure and resilient solution architecture, as per industry standards and regulations, to deploy and run the Kyndryl Managed Backup Services.

Kyndryl Cloud Services for Google Cloud speeds modernization

Accelerate your modernization initiatives with Google Cloud by creating a cloud strategy and architecture that meets the functional and business needs of your organization. Our predictive and flawless global factory delivery model leverages automation to increase productivity and reduce your risks and costs. Digital operations scale with your business and provide an open, security-rich experience to help maximize positive results.

You get continuous modernization and automation of IT infrastructure to Google Cloud and a modern managed services-based operating model. We apply a business outcome-driven approach to emphasize top- and bottom-line benefits throughout the IT investment lifecycle.

- By targeting the right workloads for migration—combined with Google Cloud technology and Kyndryl service offerings—value can be realized quickly, for example, in a matter of weeks.
- Kyndryl's proven, scalable methodology aligns with the Google Cloud Adoption Framework to help migrate and modernize legacy applications to deliver enhanced experiences.
- Kyndryl-developed automation, Google Cloud native and strategic third-party tools help you execute faster to drive rapid cloud adoption.
- Leveraging the Kyndryl services can provide a single platform for modernizing backup, accelerating hybrid cloud, and securing your data.

Customers use Kyndryl Cloud Services for Google Cloud for a strategic migration plan and roadmap to a secure, repeatable, scalable path to cloud.

Kyndryl has significant cloud experience and insight gained from decades of working with thousands of clients. You can feel confident that your migration to cloud will be without disruption.

Kyndryl and Google Cloud

Kyndryl has highly skilled, Google-certified consultants who are experienced in applying proven frameworks and technologies to consult, design, deploy, migrate, modernize, and manage workloads on Google Cloud. We have more than 4,000 Google Cloud certifications, so customers benefit from our global reach across Google Cloud products.

The Kyndryl and Google Cloud **global, strategic partnership** is designed to accelerate digital transformation and help enterprises become more advanced, data-driven, and sustainable. Together, we are focusing on customer solutions for modernization and governance, AI-driven innovation, cybersecurity and resiliency, and transformation of mission-critical workloads to Google Cloud.

Why Kyndryl?

Kyndryl has deep expertise in designing, running, and managing the most modern, efficient, and reliable technology infrastructure that the world depends on every day. We are deeply committed to advancing the critical infrastructure that powers human progress. We're building on our foundation of excellence by creating systems in new ways: bringing in the right partners, investing in our business, and working side-by-side with our customers to unlock potential.
